

# Boom CAPO II

compact powerhouse for superior meetings

## FEATURES

- Intel® i7 Processor for fast performance and multitasking
- Pre-installed and licensed Windows 11 Pro
- Compatibility with Zoom, Microsoft Teams, Webex, and Google Meet
- Dual Screen Support
- Built-In Collaboration Tools
- Recording and Transcription
- VESA Mount Kit
- Connectivity

The Boom CAPO II is an Intel NUC designed for seamless collaboration in Zoom, Microsoft Teams, Webex, and Google Meet rooms. Powered by a high-performance Intel® i7 processor and Windows 11 Pro, this compact yet powerful solution supports dual screens, HD video and audio, built-in collaboration tools, and recording and transcription capabilities. Its VESA mounting system ensures a flexible and efficient setup for any conference space.

### Powerful Performance

- Intel® i7 Processor: Delivers exceptional speed and multitasking for demanding applications and smooth video conferencing.
- Windows 11 Pro: Pre-installed and fully licensed, offering a secure and user-friendly experience.

### Seamless Integration

- Platform Compatibility: Optimized for Zoom, Microsoft Teams, Webex, and Google Meet, ensuring effortless connectivity.
- Dual Screen Support: Enhances presentations and multitasking with high-definition video and audio across two screens.

### Advanced Collaboration Tools

- Built-In Collaboration Features: Designed to streamline both in-person and hybrid meetings with intuitive tools.
- Recording & Transcription: Enables easy documentation and review of meetings for improved productivity.

### Flexible Setup & Connectivity

- VESA Mount Kit: Includes a mounting kit for easy installation and optimal placement in conference rooms.
- Comprehensive Connectivity: Multiple ports allow for flexible connections, accommodating various AV systems and room configurations.
