Thunderbolt

2.8GHz Core_i7

Windows 11 Pro

3-year warranty

The Boom CAPO delivers exceptional performance, unparalleled connectivity, and a compact design, making it the perfect desktop solution for businesses of all sizes.

Powerhouse performance

11th Gen Intel Core i7-1165G7 Processor: Experience blazing-fast speeds with the latest 11th generation Intel Core i7 processor, featuring 4 cores and 8 threads for effortless multitasking and demanding applications. Turbo frequencies up to 4.7 GHz ensure smooth operation even under heavy workloads.

Unmatched connectivity

Quad Display Support: Connect up to four monitors simultaneously with HDMI 2.0b and Mini DisplayPort 1.4 ports, perfect for creating a powerful workstation setup. Enjoy stunning visuals with 8K resolution support.

Extensive I/O: Connect all your peripherals with ease. The CAPO offers a plethora of ports, including 2x front and 2x rear USB 3.1 Gen2 ports, additional USB 3.1 and 2.0 options via internal headers, an SDXC card reader with UHS-II support, and a 3.5mm headphone jack.

Memory & storage flexibility

Expandable DDR4 RAM: Customize your CAPO with up to 64GB of high-speed DDR4-2666 memory (sold separately) for seamless multitasking and handling memory-intensive applications.

Versatile Storage Options: Choose between blazing-fast PCIe x4 Gen4 NVMe or cost-efficient SATA3 SSDs via the M.2 22x80 slot for superior boot times and application loading speeds.
