

Boom ZYGO

the ultimate hub for seamless meeting connectivity

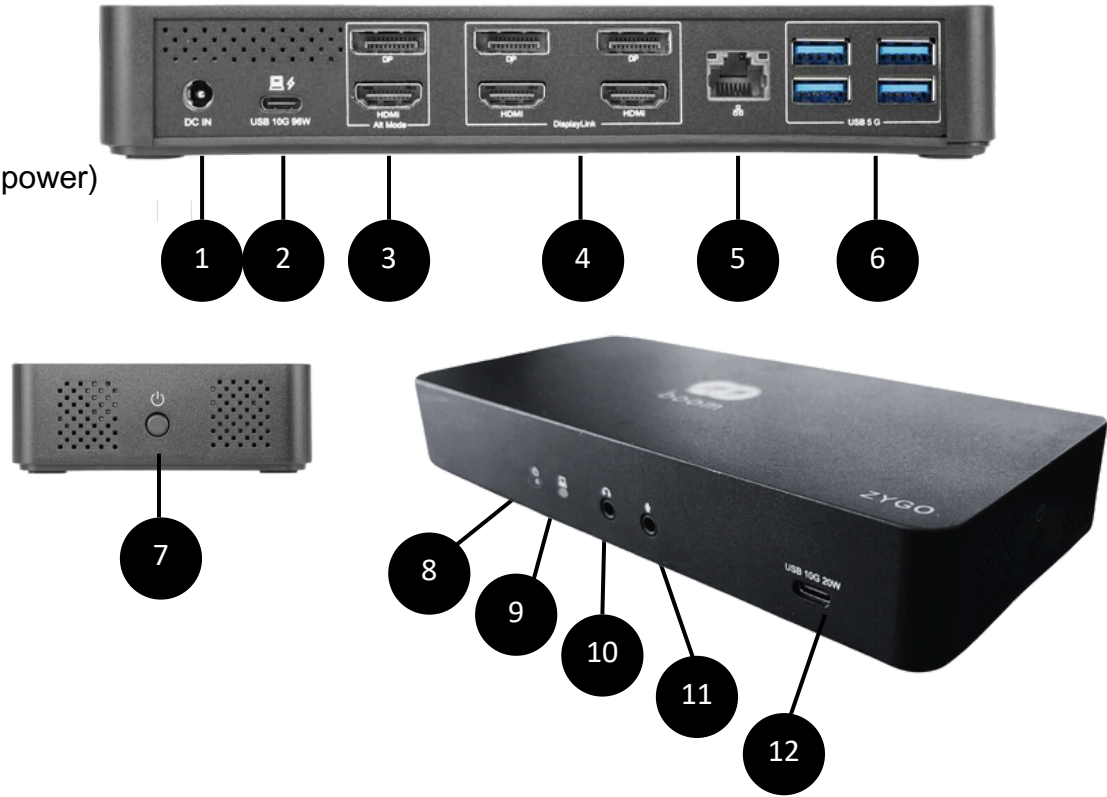

Quick Guide

Features

1. DC power port
2. Laptop port (up to 100W of power)
3. Alt Mode ports
4. Display Link ports
5. Gigabit Ethernet port
6. USB 5G ports
7. Power button
8. Power indicator light
9. PD Indicator light, on when powering connected laptop
10. Speaker jack
11. Mic jack
12. USB 10G port

Let's get started

1. Ensure the laptop or computer has the correct DisplayLink driver installed prior to setup (QR code below).
2. Connect the power adapter to your Boom ZYGO and plug it in.
3. Connect the provided USB-C cable to the ZYGO port with the laptop icon and to the USB-C port on your laptop or host computer.
4. Connect your peripheral devices (cameras, speakerphones, video bars, etc.) to the USB-A, USB-C, speaker and microphone ports on the ZYGO

*Note: In order to power and charge the connected laptop, its USB-C port must support USB power delivery

DisplayLink Download

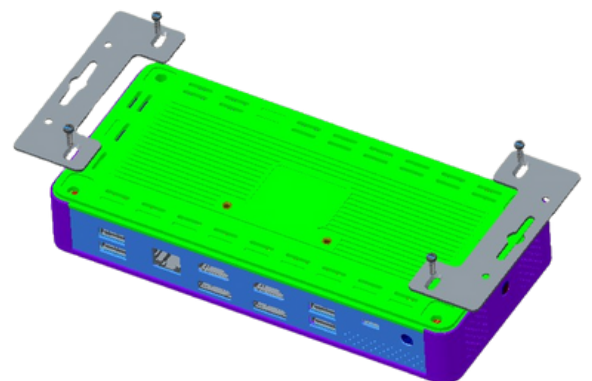

What's in the box?

- Boom ZYGO hub
- USB-C to USB-C cable
- Universal power adapter
- Mounting kit
- Rubber feet x 4

Mount installation

1. Attach mounting plates with included screws to either side of the ZYGO
2. Mount ZYGO to underside of table or wall using appropriate hardware (not included).

Your new Boom ZYGO

The Boom ZYGO is a versatile laptop docking station that boosts productivity by supporting up to three 4K displays. It features legacy display ports (HDMI 2.0 and DP 1.2) for a maximum resolution of 3 x 4K60, perfect for video conferencing, presentations, media creation, and more. The USB-C uplink provides 96W of power to charge your laptop, while the USB-C downlink offers 20W for charging accessories or a smartphone. With a 1GbE LAN port, you get fast 1000Mbps internet connectivity for efficient multitasking. The horizontal layout ensures easy cable management and convenient dock placement on your desktop.

Boom ZYGO highlights & features

Ease of use: One cable to connect and charge enabling ultimate control in your conference room or meeting space.

Triple 4K60 display: Connect up to 3 x 4K60 resolution screens + legacy 3x DP1.2/HDMI2.0

Cut the clutter: Charge laptop with 96W via USB-C uplink eliminating need for DC adapter. Additional 20W USB-C downlink port to support smart phone charging or other peripherals.

Compatibility: Use with Windows, Mac and Chrome OS

Connectivity: Room for all your devices with 2x USB-C 10g ports and 4x USB-A 5G ports

Fast connection: 1GbE LAN port for fast internet connection
