Boom GIRO with USB cable
Carrying case
Quick guide

Let's get started

Bluetooth connection

1. Press the power on/off button on your GIRO. Bluetooth light will flash while in connection mode.
2. Select Boom GIRO from your computer/cell phone menu to connect. Enjoy!

*If Bluetooth indicator turns off (sleep mode) press again to reconnect.

*Long press the Bluetooth key to disconnect device or switch to USB mode.

Computer connection

1. Connect the USB cable to your computer.
2. Long press the Bluetooth button for 5 seconds to disconnect if in Bluetooth mode.
3. Select Boom GIRO as your speaker and microphone and enjoy!

Cell phone connected via Bluetooth

Answer a call: Short press the power key
End a call: Long press the power key

Indicator lights

Green flashing light: speaker is muted

Red light: microphone is muted

Orange flashing light: low battery

*While charging red light is on. Once charging is complete, light turns green.

*Bluetooth is the default mode. The GIRO enters pairing mode as soon as it's turned on. To switch to USB mode, long press the Bluetooth key to disconnect BT connection.
